🧠 Professional Summary

Designer with 15+ years of experience, with a strong focus on UX/UI for digital products and systems. Extensive experience working alongside development teams, with solid understanding of handoffs, user flows, and building functional, implementation-ready interfaces.

Generalist profile with a strategic mindset, acting both in execution and in defining visual standards, consistency, and decision-making in low design-maturity environments.

Known for strong delivery capacity, demand organization, and balancing quality with speed.

👛 Professional Experience
